

Immunization Payment Waiver

The Center for Disease Control and Prevention Advisory Committee on Immunizations on Immunization practices recommend routine vaccinations for children. Dr. Thorstad recommends vaccines as a preventable measure against invasive diseases.

Some insurance companies will not pay, or pay below our cost, certain vaccinations even though they are recommended and/or required. Therefore, parents who choose to immunize their child/children with these vaccines will be charged a cost recovery fee.

Please read and sign below to acknowledge that you have read this statement.

I have read and understand the office policy stated above for the present and future vaccinations and agree to accept responsibility as described.

URGENT CARE HOURS

Our regular office hours are from 8 a.m. until 5 p.m. Monday thru Friday

Any evening, weekend or holiday appointments are considered Urgent Care Appointments and are reserved for treatment of children with acute illnesses.

These appointments are available only by specific arrangements with our office.

A \$25 after hours fee will be collected at the time of service in addition to any regular co-payment assigned by your individual insurance carrier. Even though having these office hours available to patients on evenings, weekends or holidays usually prevents patients and parents an expensive and time-consuming visit to the ER, Insurers coverage of this surcharge has become increasingly unlikely.

We therefore request that payment for this surcharge be submitted to our office at the time of service The surcharge will not be billed to your insurance company.
