

## ADHD Policy

1. All patients continue to need yearly Well Child Exams
2. All patients on an established drug and dose of medication for ADHD need follow up visits every three months – please schedule follow up visits in advance.
3. All refills will be given during the follow visits (i.e. 3 separate written prescriptions will be given to last until your next appointment)
4. **There will be a \$10 prescription duplication fee for each prescription that needs to be duplicated or written outside of your scheduled follow-up appointment time.**
5. All triplicate prescriptions expire 21 days after the date written (or earliest refill date). Please remember to fill your prescriptions accordingly to avoid duplication fee.
